

Refund Policy

Refunds for events

Events must have a written refund policy. For all other events the following applies:

Central NC Council has a NO REFUND Policy. We make every effort to have enough patches, programs supply, t-shirts, food or whatever supplies each event requires. In order for that to happen we need to have accurate attendance numbers. Once you have registered for an event we are counting on your attendance, and we will be purchasing the needed items for the event.

If there is a sickness that results in a person not attending an event or a death in the immediate family, then the Council will investigate providing a refund for the person or family associated with the event.

If a refund is granted, the event advisor will submit a check request to provide a refund as soon as possible. The event advisor will contact the person informing them of the status of the refund for the event.
